

# Horizon's Family Safety Offer:

## Whole House Carbon Monoxide Safety Inspection

### Special, Limited-Time Offer for Winter 2009

For **\$99.00** we will test all gas appliances for **Carbon Monoxide Safety**, as well as checking for anything that could shorten the life of your equipment or cause excessively high utility bills. Further we will provide a **complimentary** Carbon Monoxide Safety Brochure, for peace of mind.

As an added benefit, while we're there, have your existing detector(s) professionally inspected and tested for only \$39.00

#### What is performed during an Inspection:

- 1) Cycle each gas appliance and verify that the ignition components are working properly
- 2) Using a professional Carbon Monoxide detector to ensure the appliances are being vented out of the home safely
- 3) Visually inspect for any signs of incomplete combustion, which can produce excessive levels of carbon monoxide (such as black or white soot)
- 4) Ensure proper shutdown of appliances
- 5) Inspect for any conditions that could shorten the life of the equipment or cause excessively high utility bills and share with you a complete list of our findings
- 6) **(Optional)** Inspect your existing Carbon Monoxide Detector(s) with a Testing Gas

#### In Summary:

Whole House Safety Check / Inspection	\$99.00
Test existing Detectors <b>(Optional)</b>	<u>\$39.00</u>
<b>Best Value</b>	<b>\$138.00</b>

**If you're interested or simply have questions regarding this offer, please call us today @ 303.346.3466.**
